# COMMITTEE DESCRIPTIONS & INVITATION

## The APSNA Committee Groups:

1. Are you interested in getting involved with APSNA?
2. Do you want to know how?
3. Join one of the many committees ...

For more information, please come to the Committee Meetings on

Monday, May 17, 2021 – 5:30pm 6:30pm

## DEVELOPMENT COMMITTEE

**The Development Committee is looking for members to help with:**

- Recruiting vendors to sponsor our conference and year round.
- Exploring innovative companies or products to exhibit at our annual conference and year round.
- Organizing our annual Conference Fun Activity
- Obtaining donations for fun activity fundraisers

## EDUCATION COMMITTEE

**The Education Committee is looking for members to help with:**

- Updating our current Patient and Family Information Sheets
- Creating new sheets that are valuable for our members
- Brainstorming new ways in which we can support the education of our members

## PROGRAM COMMITTEE

**The Program Committee is looking for members to help with:**

- Reviewing conference abstract submissions (September – October)
- Organizing poster authors and poster session at conference
- Serving as moderators onsite at the annual conference
- Assisting Director of Program with delegated tasks related to conference development
- Program Committee members are not expected to speak or present at conference

# SPECIAL INTEREST GROUP (SIG) DESCRIPTIONS & INVITATION

## The APSNA Special Interest Groups:

- Allow members to share common interests in an organized, formal manner.
- Act as resources for the APSNA Board of Directors and general membership.
- Provide expertise for projects such as the development of Position Statements or educational materials.
- Offer advice on pending legislation, act as Task Force members, or serve as liaisons to other organizations.

**For more information, please come to the Special Interest Group (SIG) Meetings on  
TO BE ANNOUNCED**

### CHESTWALL SIG

***Chairs: Amy Pierce & Beth Orrick***

The Chest Wall Anomaly SIG aims to develop and disseminate progressive care models for children and adolescents with pectus excavatum and pectus carinatum. Involvement with this SIG can better provide for collaboration in research for this population and together we can have the opportunity to explore innovative treatment modalities with like-minded peers.

### COLORECTAL SIG

***Chairs: Patricia Kern & Monica Holder***

The Bowel Management SIG seeks to enhance the knowledge and promote discussion of bowel management strategies. The goal is to provide education, peer support and encourage development of bowel management care to all patients across the world.

### GLOBAL HEALTH SIG

***Chair: Rebecca John***

The Global Health SIG partners with nursing and pediatric surgical colleagues around the world to provide education and peer support. Our goal is to advance excellence in pediatric surgical nursing care to all children through global service and education projects.

### PEDIATRIC OBESITY , METABOLIC AND BARIATRIC SURGERY SIG

***Chair: Lori Lynch***

The Pediatric Obesity SIG seeks to address the needs of our pediatric surgical patients who are affected by the disease of obesity. The SIG's goal is to increase awareness of the emerging normal physiology of the body's energy management system and the pathophysiology manifested often (but not always) by increased adiposity. The SIG provides education on obesity related comorbidities that impact the care of children affected by obesity who have surgery. The SIG also advocates for the recognition and elimination of weight bias and discrimination that challenges children with obesity.

### SURGICAL VERIFICATION SIG

***Chairs: Ingrid Jaramillo & Ashley Parent***

The goal of the SIG of the Surgical Verification SIG is to improve communication between APSNA members who participate in the verification of hospitals by the ACS by creating a listserv and group that can ask questions about the verification process and data capture. Members can share their organizations' process and best practices within the SIG and these questions/answers will not be shared with the ACS (Goal being private, secure, and non-retaliatory by the ACS).

### TRAUMA SIG

***Chairs: Lauren Kanamori & Melissa Hill***

The goal of the Trauma SIG is to discuss current issues in Pediatric Trauma care. Monthly conference calls are utilized to enable expert nurses, from across the country, to share insights through active collaboration. Scholarly projects are formulated and implemented to impact trauma prevention efforts and support optimal clinical outcomes (i.e. conference offerings, publications, annual multi-center Summer Safety Event).
